TERMS: Cash with order. MINIMUM ORDER: \$3.00

LOUISIANA NATIVE IRISES

For the past 12 years I have collected the best native irises which I could obtain from the Sabine River to Lake Ponchartrain. Additional good clones have been obtained from crosses between these varieties and from open-pollinated seed. From these plants I am now offering a choice collection of Louisiana native irises, moderately priced for those who wish to get a start with good plants, but who are not interested in buying a variety name. This collection will contain a large Gheens White, one of the famous Abbeville Reds, several types of Giganticaerulea (tall marsh-land blue), a yellow, a hybrid Foliosa and several purples.

Orders are accepted for shipment when the plants are dormant in early August through October. Price \$5.00 per dozen, delivered.

"GARDEN COLLECTION" of seedlings of merit and good collected plants. Mostly in shades of blue and purple. Price: \$3.00 per dozen, delivered.

Named Varieties of Native Iris

Abbeville Red -----	\$1.00	fulva (Flame colored) -----	.25
Abbeville Yellow -----	2.00	giganticaerulea (Tall blue) -----	.25

of Iris giganticaerulea) --	\$1.00		

INTRODUCTIONS OF LOUISIANA IRISES

ROGER DAVIS	- A beige-yellow seedling of Abbeville Yellow. The flower is broad and flat. Plant of medium height. -----	\$2.00
JUST KATE	- Deep blue with light veining. Flower large and of good form and substance. Plant tall and vigorous. Seedling donated by the test garden of the Society for La. Irises. ---	2.00
LAGNIAPPE	- Deep rose pink. Flower large and of good quality. Seedling donated by Society for Louisiana Irises. -----	1.00
LOUISIANA BURGANDY	- A red so dark that it suggests purple. Flower large and flat with excellent substance. Open pollinated seedling from a purple collected near Abbeville, La. -----	3.00
L. S. U.	- Purple with a gold signal patch half the length of the falls. (The colors of LSU) Collected in "New Iris Heaven" near Abbeville, La. Plant shows foliosa parentage. 2 ft. tall. -----	1.00
ALGIERS	- Tall giganticaerulea blue with white veining. The large, flat flower is suggestive of Japanese Irises. This vigorous specimen was collected by Vernon L. Davis near New Orleans. -----	.50
BIG WOODS PURPLE	- This tall, swashbuckling fellow sports a prominent signal patch of gold. Collected in The Big Woods, near Abbeville, Louisiana. -----	.50
PERIWINKLE	- A beautiful periwinkle blue. The plant is tall and the flowers are rather large, blooming early in the season. Origin unknown. This may be a variety from the Mary S. Debaillon collection. -----	.50
DUSKY MAID	- An interesting and attractive "smokey" in a pastel shade. ----	2.00
HIGH VOLTAGE	- Here is a large, bold, reddish-purple which towers above all the other irises. This vigorous plant produces an abundance of bloom of good form and substance. -----	1.00
LADY OF THE LAKE	- A tall, beautifully ruffled, pale lavender. This plant has attracted very favorable comment in the floricultural test plots at L. S. U. -----	1.00
BLACK-OUT	- Royal red-purple with deep purple veining and a radiant, gold signal patch. Falls of good substance. Plant and flower are of medium size. -----	3.00
FLAT-TOP	- The flat form of "Peggy Mac" in a pale blue color. This is another open pollinated seedling of a plant collected near Abbeville, La. -----	2.00

HYBRID DAYLILY PLANTS

These field-grown plants are a choice collection of all the colors known to daylilies, including yellow, gold, pastels, bi-colors, "reds", maroon, and "pinks." The plants have been grown without crowding and have developed extensive root systems. Visitors have pronounced many of them superior to some of the medium to high-priced named varieties.

Plant in the summer or early fall for large, flowering clumps the following spring. Sold only in unlabeled, mixed colors.

PRICE: \$3.00 per dozen, delivered in the United States, or 25¢ each if part of a minimum order of \$3.00

Plant divisions of these hybrids are offered by color at the same price as the field-grown plants. Color classifications are: Fulvous, yellow to gold, salmon pink, red to maroon and bi-colors.
